Before planning your Compact Fire Ring project, check with your local zoning commission for building restrictions and required construction permits.

1. Lay first course on a level, compacted gravel base, paver patio, or slab. Add a bead of adhesive.
2. Add the 2nd course. Check and adjust for level as you build, then add another bead of adhesive.
3. Add top course. Check and adjust for level as you build.
4. Attach optional cooking grate to steel ring and place in position. Fill bottom of fire ring with gravel and sand mix to cover the bottom course.

**choose your color**

- Desert
- Bluestone
- Santa Fe

**builds in four easy steps**

**accessories:**
