

Wall with Pipe Penetration

Classic 6

Notes:

1. Pipe to extend beyond base course of wall no less than 12"
2. Bed pipe in open graded crushed stone (i.e. no. 57 or 67 stone) and tie stone to 4" dia. pipe at wall base and daylight 4" pipe through wall face on each side of concrete headwall

This drawing is furnished for preliminary design purposes only, and should not be used for final design drawings or construction drawings without the certification of a professional engineer registered in the state in which the wall will be constructed
